Does Size Really Matter?

GlutaMyst™ nanosized Glutathione are 65nm-75nm.
65nm is up to 30X smaller than 2 microns.

CTFO Proprietary

GlutaMyst™ Glutathione Cellular Nutrition Blend

Minerals, metals, enzymes, and sugars play crucial roles in supporting cellular health and function. Here's an overview of their contributions to cellular well-being:

Minerals:

Essential minerals are vital for various biochemical reactions.

Metals:

Trace elements play significant roles in cellular processes.

Enzymes:

Enzymes are essential for the synthesis of various cellular components.

Sugars:

Sugars provide energy for cellular metabolism.

Balanced and adequate intake of these components is crucial for cellular health. Deficiencies or imbalances in minerals, metals, enzymes, or sugars can lead to disruptions in cellular function and contribute to various health issues.
